Basketball Prospects For Coming Season

ALL INDICATIONS POINT TO A SUCCESSFUL SEASON — GOOD SCHEDULE ANNOUNCED BY MANAGER HARRIS.

With a big schedule, a good-sized squad and an able coach, everything promises well for a big year in basketball.

The first call for practice came November 21, and as a result 30 men appeared in their basketball togs to compete for places on the 'varsity team.

The squad includes all of the men who played last year, which means two ex-captains, a captain and two other men who have already been awarded their letters in this sport.

Several of the new men are showing up well, and it is the belief that as good a team as was on the Hill last year, or a better one, will be turned out this winter.

The schedule for the year as far as it had been arranged by Manager Harris is as follows:

Dec 9 — Wentworth Institute, at Storrs.

16 — Wesleyan University, at Middletown.

Jan. 12 — New Hampshire, at Storrs.

17 — Rhode Island, at Storrs.

20 — Mass. Aggies, at Amherst.

Feb. 3 — Rhode Island, at Kingston.

7 — Seton Hall, at Newark, N. J.

9 — Stevens Tech, at Hoboken, N. J.

10 — Pratt Institute, at Brooklyn.

17 — Open, at Storrs.

24 — New Hampshire, at Durham.

Mar. 3 — Open, at Storrs.

10 — Open, at Storrs.

The game for February 17 has not been decided but Manager Harris is sure it will be at home. The dates of March 3 and 10 will be filled by home games, with either Vermont University, Norwich University, or Middlebury college.

Watson, Shea and Monroe were the judging team which represented Connecticut at the annual Poultry Show in Madison Square Garden last week.

There was a large representation from the college at the annual meeting of the American Association for the Advancement of Science.

Third Agricultural Exhibition Is Held

CONDUCTED BY AGRICULTURAL CLUB, INC.—MANY INTERESTING EXHIBITS SHOWN BY STUDENTS AND OTHERS.

The third annual Agricultural Exhibition, better known as the Annual Corn and Fruit Show was held in the Hawley Armory, Friday evening, December 8th. This year the above name was given to the show because it was open to agricultural products in general. In former years the classes have been corn, grains, potatoes, pumpkins and squashes, and apples; this year, two classes of eggs, poultry, and exhibits of other kinds were added.

The exhibition was held under the auspices of the Agricultural Club, Inc. The club worked hard to make the affair a success this year and judging by the looks of the Armory on Friday night, December 8th, the hopes of the members were realized. The great floor of the armory had a row of tables around the four sides while at the stage end the tables had to be doubled up. These tables contained the apple exhibit of over ninety varieties. In back of these tables was the artistically trimmed stage.

About 350 entries were made in the various classes, including the large number of entries made by the co-eds in the Home Economics Class. The Mechanic Arts Class made a big exhibit of the work that the members have been doing on wood turning, forging, etc. Some of the school children of the vicinity entered canned goods, sewing and various other articles. The Agronomy Department exhibited many varieties of corn and potatoes that are grown in Connecticut.

The stage was trimmed by the senior class in Horticulture and they certainly made an exhibit worth looking at.

Perhaps one of the most interesting exhibits was the one shown by Prof. Estenhead of the Bacteriology Department. He was the sole author of everything shown on his tables because the corn, grains, mangels and alfalfa were the result of experiments carried on by him in his own private garden.

The judging contest on corn, apples and potatoes, open to students only, (Continued on page 7.)

Review Of Football Season For 1916

CAREFUL ANALYSIS SHOWS MUCH TO BE PROUD OF IN PLUCKY ELEVEN THAT DEFENDED CONNECTICUT FOOTBALL HONORS THIS FALL.

The football season of 1916 goes down in history as the biggest year a team has had since the establishment of football back in '82. Thruout the season the team worked together as a unit, and always showed the fighting spirit and never the white feather. Behind the team stands the figure of Coach Donahue who built it out of practically nothing. His constructive powers as a coach are high in the esteem of players and non-players. Around three veterans he built up an organization which is undoubtedly the best that has ever represented the college.

Though the team won but one game, the fact that all their defeats were close, and were handed down by colleges and universities where sixty men is considered a small-sized squad, stands out significantly. That most of the defeats were not merited is the general opinion, for the Aggies are believed to have outplayed all their opponents with the exception of Mass. Aggies; they put up a 200-pound team that was like a giant compared to a pigmy when matched with the fast, but light Nutmegs.

The defeat at the hands of Rhode Island State College is a sore spot in the record. Without bringing up any of the circumstances concerning the game, it can be said that Connecticut was the victim of bad officiating rather than of the team representing the Kingston Institution. With one hundred and fifty loyal rooters urging them on, the team outdid itself, but to no avail.

The opening game with Holy Cross surprised the Blue and White, for in this game they held Holy Cross to one touchdown.

In the game with Wesleyan, the Aggies had a jinx following them for sure, for though "Breaks" were many, they all went to Wesleyan. The players from the college on the hill had a following of about one hundred, and Cheerleader Dow and his cheering section supplied the spurs for the occasion.

Despite the fact that they rode 48 (Continued on page 5)

Forty Couples Enjoy Annual Football Hop

AUTUMNAL FUNCTION SOCIALLY AND FINANCIALLY A GREAT SUCCESS.

The annual Football Hop was held in the Hawley Armory on the evening of November 18. The dance was a great success, both socially and financially, about forty couples composed of members of the faculty, alumni and student body, attending. Every one was in high spirits after the football victory in the afternoon, and when the music started at 8.30 every one was ready to enjoy the dance to its fullest extent. Hatch's orchestra of Hartford, composed of seven pieces, furnished the music for the eighteen numbers on the program. During the intermission, refreshments were served by members of the freshmen class. The patrons and patronesses were: President and Mrs. Charles L. Beach, Dr. and Mrs. Howard D. Newton, Dr. and Mrs. Theodore H. Eaton, and Prof. and Mrs. William E. Kirkpatrick.

The Armory was tastefully decorated for the occasion, the color scheme being green, blue and white. The view of the running track was shut off the dance floor by a bank of cedar trees, and along the bottom of these was strung blue and white bunting. From the orchestra's stand, green and white paper streamers lead to different points in the hall. The committee in charge of the decorations was composed of Louis H. Collins, Jr., Clarke A. Barnes, Nathan A. Cohan, James G. Shirley, Joseph R. Dillon and Howard B. Goodrich.

The credit for the success of the dance is largely due to the executive committee composed of Julian H. Norton, Albert C. Klingman, Walter F. Ungethuem and Benjamin F. Thompson.

Norwich Succumbs to 'Varsity in Fast Game

CONNECTICUT OUTPLAYS VISITORS IN EVERY PHASE OF GAME AND SCORES SPECTACULAR VICTORY.

After a long season which was characterized by defeats of a single touchdown, the Aggies came across and wholesomely defeated Norwich University of Vermont, 17-7. The vis- (Continued on page 3.)

"THE COLLEGE"

Editorials

The need of a trophy room is becoming more pronounced every day. The memory of a victory can not be lasting, if there is not some way in which it will be brought to the memory of each entering class and each college generation. It would have considerable effect on the members of a team if they entered a game with the feeling that it was their duty to add another unit to the record of athletic accomplishments of the college. They would consider it, in a way, a reward for their efforts, if each victory was recorded in some permanent way.

It would afford a suitable place to hang the pictures of teams, of prominent athletes, of popular coaches, and of members of the faculty and alumni who interested themselves in the development of the sports here at college. It should be the social center of the Hill where fellows could get together and talk. A rendezvous such as this would have an all-around healthy effect in decreasing petty politics, and would tend to give more substance to athletics as the basis of the ultra-curricular activities of the college.

It could not help but be beneficial in the campaign now under way to increase our enrollment. About the only reference a high school student ever sees to a college, he reads on the sporting page of the daily papers, and naturally enough he considers the athletic standing of the institution he is to enter. A room adorned with trophies and records of games and meets won, will attract the prospective student

more than well equipped laboratories, or a library of books.

To begin it now would not result in a room scantily decorated, for there are many contests that were fought before the present college generation, the scores of which we should be proud to emblazon on the walls of such a sanctum. A few of these results against colleges with whom we are particularly interested today are given below:

Football.

Year	C. A. C.	Opponents.	
1895	22	Rhode Island	8
1899	12	Springfield Tr.	5
1899	17	Rhode Island	0
1900	5	Springfield Tr.	5
	43	Rhode Island	0
1901	27	Rhode Island	0
1904	10	Rhode Island	10
1908	0	Boston College	0
1910	0	Boston College	0

Baseball.

1907	5	Rhode Island	4
1908	5	Rhode Island	2
	5	Springfield Tr.	5
1909	18	Springfield Tr.	8
	7	Boston College	2
	6	Rhode Island	1
1910	3	Rhode Island	1
1912	2	Middlebury	1

In the first game of basketball ever played with Rhode Island, Connecticut scored 24 points to her opponent's 21.

The influence of such a room can not be detrimental, and the benefits would be many. The time is opportune for the installation of a trophy room, which would prove to be the core of a new athletic life on the Hill.

*

The college authorities have taken the initial steps toward making good the slogan, "400 students by 1920." A publicity campaign, the organization of county alumni clubs and the enlistment of the undergraduates in the work, are all included in the movement which has been launched recently. The knowledge of these activities by the faculty has apparently produced little effect, and, surely, no enthusiasm has been shown on the part of the student body.

The "let-them-do-it" attitude is silly and unjust, and not complimentary to the booster spirit upon which Connecticut men pride themselves. This, surely, is an activity which deserves and demands the co-operation of all the elements of the college. It is too big an undertaking for the student body to tackle alone, but which in the last analysis and in the individual case, is the work of the undergraduate. Furthermore, the student interests are the ones that will receive the greatest benefit by an increase in enrollment. The teams will obtain better and more material, the A. A. more funds to conduct athletics and provide coaches, the dances better support, the dramatic and musical clubs

more candidates to choose from, and there will be more intra-mural competition and rivalry for the various student offices, which is always conducive of more effective work and greater effort.

The college is bound to grow and we might as well get into the movement, and get some immediate results and whatever credit there is in it.

There are two fields of this work for which the undergraduates are particularly fitted, namely, in getting high school students at home interested in the college, and in keeping the papers of the state informed as to our activities on the Hill. Several attempts have been made to organize a press club, but for some reason or other have been discouraged and have died a natural death. The service which an active student press bureau could render at this time, would be invaluable, and beside the personal satisfaction which would come of being useful to the movement, there would be sufficient income from the work to compensate for the trouble it caused.

There is need of a great quantity of work, if we are to have "400 students by 1920" and the energies of Alumni, Faculty and Students alike must be exerted to make good the slogan.

1917--18 "Nutmeg" Out by April Fifteen

BOARD COMPOSED OF SENIORS AND JUNIORS TO EDIT BOOK THIS YEAR.

Work has begun on the "Nutmeg," the college year-book. This year the bulk of the work will be carried on by the Juniors with the help of the Seniors and Sophomores. The plan of having the "Nutmeg" a Junior publication rather than Senior, is going into effect this year for the first time. The reason for making the change is to guard against having unfinished business carried over after the class graduates.

According to the plans outlined by the board, all the material for the book will be in the hands of the publishers by February 28, and the book will be finished by the middle of April. This year's "Nutmeg" will have two hundred pages.

The "Nutmeg" board is composed of N. A. Choan, editor, of Senior division; J. H. Hildring, editor, of Junior division, and J. B. Kilbride, W. D. Shea, L. F. Lawrence, Seniors, R. H. Barrett, W. T. Clark, P. L. Sanford, F. B. Thompson, Juniors, and L. L. Crosby, R. T. Mattoon, Sophomores, associate editors; J. S. Miller, '18, is business manager, and S. W. Mead, J. A. Kuelling, E. L. Newmarker, Seniors, and A. E. Upham, Sophomore, are assistant business managers.

Department Notes

ANIMAL HUSBANDRY AND FARM DEPARTMENTS.

Inquiries received by this department regarding swine and sheep would indicate a very rapidly increasing interest along these lines. A recent shipment of pork from the College was sold at 13½ cents and still higher prices were offered earlier in the season.

A Berkshire boar of national reputation has recently been presented to the College by Mr. Robert A. Fairburn, of Fairholm Farm, Westfield, N. J.

One of the best young sows sold by Branford Farms this fall has been bar-

gained for. These additions with stock selected from this season's crop of pigs, will put our Berkshire breeding herd on a firm foundation.

All of our Shropshire ram lambs have been sold and inquiries are still coming in. One of our best lambs went to the Massachusetts Agricultural College. Another heads the flock at the Rhode Island State College. These facts are particularly complimentary to our stock.

Bull calves have recently been sold to Charles Rosebrooks, of Storrs, and James Beebe, of Colchester.

Three Shorthorn heifers were sold to Harold C. Hibbard, of North Woodstock, a former student at the College, and two cows to Mr. B. R. Arnold, of Stafford Springs.

Several inquiries have been received for Hereford breeding stock, all of which would indicate a rapidly awakening interest in beef cattle.

DAIRY.

Two recent additions to the equipment in the dairy should prove a great help in producing pure milk. These two additions consist of a clarifier and pasteurizer. The pasteurizer is a 100-gallon Wizard vat pasteurizer made by the Creamery Package Company, of Chicago. This is equipped with an improved heat coil and mounted on the top is a cooler supplied with a milk pump for forcing the milk up. It takes 15 minutes to heat the milk, it is held for 30 minutes, and then 30 minutes are allowed for cooling.

Before going into the pasteurizer the milk is passed through a new type of Sharples' Clarifier. This takes out all dirt and foreign material. All the milk used at the C. A. C. dining hall goes through these machines. As well as being used in connection with the commercial side of the dairy they will be used in class work.

HORTICULTURE.

The Sophomore class in vegetable growing have just completed two large concrete hotbeds. These were made entirely by the students during their laboratory work. They are situated at the south end of the greenhouses.

The New England Fruit Show was held this year at Montpelier, Vermont, in connection with the Vermont Horticultural Society meeting. To help out the exhibition material was contributed by the Connecticut Pomological Society. This department donated a number of varieties of apples. Twenty tills (packed boxes) and sixty-five varieties on plates constituted this department's contribution to the exhibition. Each plate was labelled with variety name, season, quality, and use. This was the only college exhibit there and attracted considerable attention.

EXTENSION.

Mr. Tillson has been appointed assistant county agent of New London County. He is a graduate from Cornell and has had considerable practical experience in farming, especially in dairying.

POULTRY.

The new egg-laying contest is now well under way. It consists of one hundred pens of ten birds each, a total of one thousand hens. There are nine varieties represented, namely, Barred, White, and Buff Rocks, White and Buff Wyandottes, Rhode Island Reds, White Orpington, White Leghorns, and Silver Campines. These thousand hens have come from sixteen different states with two pens from Ontario and five from England.

The second annual inter-collegiate poultry judging contest will be held at Madison Square Garden, New York, about December 30th. It is expected that a team from C. A. C. will go to compete with teams from Maine, Massachusetts, Cornell, New Jersey, Maryland, and North Carolina. By way of preparation for this trip the Senior class in poultry judging, spent Friday, November 24th, in Groton, at the show conducted by the Southern New England Poultry Association. Mr. H. W. Schriver, Secretary, showed the class every possible courtesy, thus enabling them to get in some fine preliminary work.

The poultry department has recently issued bulletin 98, which is a compilation and discussion of the data collected in connection with the fourth egg-laying contest. Students or any of their friends who care for a copy of this bulletin can obtain it gratis.

'Varsity Plays Well But Loses to N. H.

GREATER WEIGHT MAKES IT POSSIBLE FOR VISITORS TO WIN ON STRAIGHT FOOTBALL.

The first home game of the season was played on Storrs field on November 4th. The day was a little warm for a game but the field was in excellent condition. New Hampshire showed much superiority in weight over the Connecticut lads, but the Aggies fought with pluck and pep throughout. The game was noticeably free from foul play and very few penalties were inflicted on either side.

Connecticut kicked off and New Hampshire began a merciless and seemingly unrelenting series of line plunges. Within four minutes after the first whistle, the heavy visitors had scored a touchdown with an easy goal kicked.

Once more the Aggies kicked off and New Hampshire again made a tri-

umphant march toward the home team's goal line.

At the end of the first half the score was 20 to 0 in favor of the New Hampshire men.

In the second half the Connecticut proverbial stone wall got into action and New Hampshire scored but once. This touchdown came in the third quarter when Broderick carried the ball over the goal line. No goal was kicked from their score.

During the game the Nutmeg State team made but four first downs, most of their distance being made around the ends. New Hampshire made twelve first downs throughout the game, some by line plunging but mostly by the cat-like dodging of Westover through an open field.

The Blue and White team played a peppery and hard game, putting a splendid fight against their heavy opponents.

The summary:

Aggies.	New Hampshire.
Dickinson, McAuliffe, Reeve....	Jenkins
	Left End.
DeWolf	Leavitt
	Left Tackle.
Strong	Morwell
	Left Guard.
Wilson, Alberti.....	Harwell
	Centre.
Gleason	E. Bell
	Right Guard.
Newmarker.....	Gray, Waterman
	Right Tackle.
Ryan	Blair
	Right End.
Hopwood, Brigham.....	Westover
	Quarterback.
Clark	Hewey
	Left Halfback.
Tonry	Broderick
	Right Halfback.
Smith, McCarthy, Shaffer.....	
	L. Bell, Shuttleworth
	Fullback.

Score—New Hampshire, 26; Conn. Aggies, 0. Touchdowns—Broderick 2, L. Bell, Blair. Goals from touchdowns—E. Bell 2. Referee—O'Hara, U. of Penn. Umpire—Brown, Springfield Y. M. C. A. College. Head Linesman—Harrington, Willimantic Y. M. C. A. Time—12-minute periods.

Norwich Succumbs to 'Varsity in Fast Game

(Continued from page 1.)

itors were allowed but one touchdown which was gained on a fluke, when McIvers intercepted and caught a forward pass and ran the length of the field, 55 yards, for a score.

The home team played a whirlwind game from the start and showed their grit when they held Norwich for downs on their own one-yard line. The Green Mountaineers were allowed but six first downs while the Blue and White warriors made twenty-two. All points in the score were made on straight football. Hopwood played a sensational game, running the team

"Orchard Success"

is a small pamphlet of big ideas that you should send for at once. It tells how thoroughly, quickly and cheaply you can rid your orchard of all scale, larvae, eggs and fungi. It describes "scalecide the one great dormant spray," which mixed 1 to 15, is guaranteed to kill every scale it reaches. One barrel equals three barrels of lime sulphur and there is no spray more simple, safe or effective.

Our Free Service Department is for your special benefit. Question us about any orchard and garden sprays and tools. Our lifetime experience is yours for the asking. Write TODAY.

perfectly and hurling forward passes better than ever. Tonry distinguished himself by his line plunging for big gains.

The first score of the game was made by Norwich University in the first period. This was closely followed by a field goal from the thirty-yard line by Hopwood. In the second period Tonry scored a touchdown, which put the Aggies in the lead. The end of the first half saved C. A. C. from scoring another touchdown. The team was on the thirty-yard line and Hoppie tried another dropkick, but the wind was against him and the ball just missed the cross-bars.

During the intermission between the halves the old Connecticut spirit came to the front, and the college songs were rehearsed. When the squad came on the field a hearty cheer was accorded them and they re-entered the contest with renewed spirit.

During the second half the Aggies scored one touchdown when Tonry went over, following Hopwood's brilliant forward pass to McAuliffe. Hopwood was successful in kicking the goal.

Throughout the game the aggressiveness and pep of Eddie Newmarker were especially noticeable. During the latter part of the season when, owing to an injury to his leg, Capt. DeWolfe was unable to play, Newmarker acted as captain. The

chances of getting a play through Newmarker were said to be as stout as the proverbial snowball. In the final game he outdid himself if such a thing were possible.

Tonry kept up his good work, which he manifested early in the season. It was Tonry who sent through, again and again, and always for big gains. He undoubtedly gained more distance than any single individual player has gained on that field. His line bucking was infallible and did more than anything else to tire out the Vermonters.

Dickinson played a remarkable game at left end. With Hopwood at the throwing end he managed some pretty forward passes. Dickinson also played a good defensive game spilling the ends and getting the man carrying the ball.

Coach Donahue displayed generous sportmanship in the final quarter of the game when Norwich desired to replace a man with a substitute who had already played in the game. According to the rules of the gridiron, this would allow Connecticut half the distance of the field. "Buck," however, allowed them to play their man without accepting the penalty, which would with all probability have meant another touchdown for Connecticut.

After the game, the loyal rooters did a snakesdance around the field and at night celebrated the event with a huge bonfire.

The summary:

Conn. Aggies.	Norwich University.
Dickinson	Hyland
	Left End.
Gleason	McIvers
	Left Tackle.
Strong	Steele
	Left Guard.
Alberti	Howard
	Centre.
Francis	McDonald
	Right Guard.
Newmarker	Cameron
	Right Tackle.
McAuliffe	Sullivan
	Right End.
Hopwood	Ogsten
	Quarterback.
Clark	Bishop
	Left Halfback.
McCarthy	Martin
	Right Halfback.
Tonry	Boewe
	Fullback.

Score—Aggies, 17; Norwich, 7
Touchdowns—McIvers, Tonry, Hopwood. Goals from touchdowns—Hopwood 2, Boewe. Referee—Dr. O'Hara, U. of Penn. Umpire—Brown, of Springfield. Linesman—Hurley. Timer—Hurley.

Substitutions—for the Aggies, McGuire for Francis, Smith for McCarthy, Reeve for McAuliffe; for Norwich U.—E. McDonald for Bishop, Brigham for Steele, Day for Howard, Connelly for Martin. Time of quarters—15 minutes.

Green Pastures

To the Editor of the Campus:

We are apt to think, and yes, fully believe that other's pastures are greener than our own. By that I mean that we are often inclined to think that other people's things are better than what we own, what advantages we have, and our surroundings. Just to illustrate my point and to show how we are even like animals in this respect, I will tell one story, and recall to your minds another very familiar one.

When I was a young boy on the farm, my father owned a pet driving horse. He thought so much of this horse that one day he decided to fence off part of the best mowing lot on the farm as a pasture for the pet animal. So father put a rail fence through the lot back of the barn, setting off two acres of fine grass land, free from stones and brush, just as good as the part left for mowing. The next day Prince was turned into his fine paddock to run, kick, eat and do as he pleased. After he had surveyed the pasture he went to eating the fresh, green grass. Father and I went away and did not come back again until late in the afternoon. Then to our great surprise we found Prince with his head over the fence eating the grass from the other field. Father grunted something about the horse being almost human, then went away. I have come to realize what he meant by the "horse being almost human."

There was that horse eating grass from the other side of the fence when he had plenty, and the same kind, right at home, or in his own surroundings. Yes, and long before the grass was eaten down close in the pasture, there was a narrow strip along the mowing lot beside the fence that had hardly a spear of grass growing on it.

Then there is the story of the dog which I am sure we all know about. The dog was coming home one day with a large piece of meat in his mouth and was crossing a narrow bridge when he noticed his shadow in the water below him. With a growl he dropped his piece of meat and went for the seemingly better piece that the image had. Keep these two stories in mind and when I have finished, at least I hope you will see the point.

When we were young boys we often thought that our chum's yard was a little better to play in, that his playthings were perhaps a little better and many times we thought his home has a more congenial atmosphere than our own. Yes, his pasture was a little greener, the grass a little sweeter and his piece of meat was a little larger.

Then as we grew older we went to high school. During the football, basketball, and baseball seasons, our teams visited other high schools and

Whys and Wherefores of Fall Spraying

is the title of a little booklet, giving seven reasons, official and non-official, why it is the best time to spray. This booklet will be sent out by the B. G. Pratt Co., 50 Church St., New York, manufacturers of the well-known "SCALECIDE" at a very early date. If you are not on their mailing list, send them a postal today giving the number of your trees and your dealer's name and you will receive a copy free. Address Dept. 29.

now bring the facts from the Experiment Station direct to the Farmer. The Experiment Station men are anxious to discuss the questions of most value to the people along the routes. Ask them to bring along an exhibit of fertilizer materials and to tell you how to get the most plant-food for your money.

Recently one train gave demonstrations of actual fertilizer mixing. Soon many will do so. Take your fertilizer dealer to these trains. Ask him to sell

POTASH SALTS

and brands containing six to ten per cent. Potash. We shall be glad to send you, FREE, pamphlets prepared by the best practical authorities on fertilizers for various crops and soils. Write today, mentioning crops and soils that you wish to improve.

we thought that they were a little better, had better teachers, a better system than our own. Many times the players came back with inspiring accounts about things in general at the opponent's high school—remember the horse and the green pasture.

And now we are in college and a little of that same feeling seems to be with us. We criticize, find fault, "crab" the system, run down the professors, talk about how things are run in other colleges, never once thinking of the advantages and good things we have at home. Our football team made several trips to other colleges this fall and the players came back with thrilling accounts about how nice everything was at the other college.

We all went down to Rhode Island to see our football team play and to give it our most hearty support. I have

talked with several collegemates since, and found that they went down out of curiosity as well as to see the game. This was a good chance "to kill two birds with one stone"—to see a good football game and to visit our sister college. The fellows that I talked with had this sentiment, that they wanted to see the buildings, campus, and other things at Rhode Island. After visiting everything they came to the conclusion that their own Alma Mater, that good old C. A. C., was not so bad after all. That is just the kind of spirit we need here at Connecticut instead of just sitting back and "crabbing" about how bad everything is.

Let us look around our own pasture, eat some of our own grass and not keep looking over into the other lot with envious eyes; and let us not drop the piece of meat we have for another

seemingly better, but let us all make the best of what we have and some day we will find that C. A. C. has a better name and is known better than we ever thought was possible.

C. A. P.

Educate On a Farm During the Summer

THE STUDENT WHO NEGLECTS TO SPEND HIS VACATION IN PRACTICAL FARM WORK FORFEITS BIG OPPORTUNITY.

It is with eagerness and impatience that we rush through the last few days of the college year. Banners and pictures are taken down and trunks are hustled off. In a couple of days, after college has closed, the members of the student body have distributed themselves to spend their summer vacations.

Part of us return to our homes, while others have different plans made for the summer. We might say truthfully that half of us have no definite plans as to just how we are to spend the ten weeks. We find far too many who are making no provision for using the knowledge they have gained during the year, or who are planning on getting no experience during the summer which will aid them to more profitably spend the coming school year.

There are many who are content with having satisfactorily passed the requirements of the course, not realizing the opportunities which are open to them during the summer months for getting experience and knowledge which they could not possibly get during the year. This would be of much value to them in their work after graduation, on their own farms, teaching, as farm superintendents, or in experiment or extension work. There are two ways in which we could secure this experience along with our four years at college—first, by working for the farmers of our State a part or all of the summer, and, second, by spending our vacations at the college.

By farming it for three months during the summer, we have spent what might be termed a thorough year in agriculture. During the first nine months we have studied methods and ways of farming with but a small part of it to do. By going out on the farm during the busy summer months we see the other side of agriculture. We see farming as it is done in a business way. We learn how to do the work, and pick up a thousand minor details which our course at college has not time to give us. We are with the farmer in his rural life and we are much better able to understand him and what stands for success and failure in his business. We get the farmer's practical, sound ideas about farming, which he has picked up from

years of experience. The farmer, on the other hand, is benefited as well. Through his student employee he is able to familiarize himself with the work carried on by the State college. He is perhaps able to get ideas and methods about farming that will make it more enjoyable and profitable both to himself and his community.

The summer vacations should be a means by which Connecticut Aggies and the farmers of the State could spend a profitable and enjoyable summer together, and be instrumental, if only in a small way, of advancing the agriculture of the State.

For the student who wishes to remain at the college the best of opportunities are offered for finding what he wishes. The college at this time is a large diversified farm. A student staying here can secure experience and practise not only in the departments in which he works, but by observation he can follow the principles and methods used by all the departments of the college. He has always at his disposal a library of books and farm papers for any reference work he cares to do.

As for passing a pleasant summer, nothing can compare with C. A. C. Any of the fellows who spent their last vacation here can answer for the truth of this.

Why then should we not have more of our students spending their vacations on a farm or at the college, bringing the farmers in closer contact with the activities of Old Aggie and accomplishing as it were a three cornered service, benefiting the college, the student and the farmer.

Review of Football Season For 1916

(Continued from page 1.)

miles on the Central Vermont, the team was able to don suits and give the Mass. Aggies a hard rub for twelve points. The Bay Staters should have been able to rub much harder than they did, for they outweighed their visitors 20 pounds to a man.

In the New Hampshire game, the first to be played at Storrs this season, the home team was beaten in the first half. They played stronger in the last half, but failed to score.

The game at Stevens added one more to the string of defeats. In this game, also, the steady inlet of freshmen from the Stevens side lines served to play out our men, and though Connecticut was in the lead at the end of the first half 3-0, the final score was 19-3.

Last and most important of all games was the one with Norwich University, which eases the sting of many defeats, for according to comparative scores, Norwich has a higher rating than any of the other teams the Aggies played.

Blue and White Hold Stevens to 19--3

CONNECTICUT PLAYED HOBOKEN LADS TO STANDSTILL IN FIRST HALF, BUT SUCCUMBS TO SUPERIOR WEIGHT LATER IN THE GAME.

The Connecticut team left the Hill on Friday, November 10th, to journey to Hoboken, N. J., where they played Stevens Tech. on the following day.

The game was well fought throughout the first half, the score at the end of that half being 3-0 in favor of the Nutmeg lads. The Connecticut score came in the second quarter when Hopwood placed the ball on the home team's 10-yard line by a well executed end run. On the next play he dropped back to the 17-yard line and booted the ball over the cross-bar and between the posts.

Stevens was unable to work any of those plays against the Blue team which had held Columbia to a 0-0 score on the previous Tuesday. In the second half Coach Rodgers replaced the entire Stevens backfield with his second string men. Sad to relate, the new and fresh men literally swept the Aggies from their feet and scored three touchdowns and one goal.

Eddy Ryan, Connecticut's speedy end, and Webb, Stevens' Captain, were both put out of the game on the claim that Ryan was "Leaving his feet" at Webb. The Blue team was rather crippled, due to the fact that Tonry and Schaffer were both suffering from severe colds, and that Tonry was injured in scrimmage.

Summary:

Conn. Aggies.	Stevens.
Dickinson	Carlson
Left End.	
DeWolf	Ford
Left Tackle.	
Strong.....	Tetzel, Brett
Left Guard	
Alberti.....	Johnson, Nevius

Score—Stevens, 19; Conn. Aggies, 3. Touchdowns—Deghau 3. Goals from touchdown—Goodale. Field goal—Hopwood. Referee—Sanders, Columbia. Umpire—Crooks, Penn. Linesman—Dwyer, Penn. Time—15-minute periods.

C. A. C. at Plattsburg

The military instruction camp at Plattsburg opened July 5, 1916. The object of such camps is to train civilians to be officers in volunteer armies in case of war, and were started by and conducted under the supervision of Maj. Gen. Wood. There were three such training camps in all, located at Plattsburg, Ft. Sam Houston and Ft. Oglethorpe.

This year about 12,000 men attended the camp at Plattsburg, the total number constituting seven regiments against last year's three. Camps of this sort offer several branches of military training, including infantry, cavalry, artillery, and engineering. In general the July camps were attended by college men, whereas the August and September camps were composed chiefly of business men from the cities.

At the July camp "Connecticut" was represented by four men—Ryan, Upham, Mason and Feeney. Ryan entered as a sergeant, Upham and Mason as corporals, and Feeney as a private. When the final appointments were made, three weeks after the opening of camp, Ryan was promoted to a first lieutenant.

Captain Amory, commandant at Connecticut, was detailed to Plattsburg during the July camp, and was in charge of the target range. While at Plattsburg he was promoted to the rank of captain.

Entertainment Courses for 1916--1917

The best and most expensive series of entertainments ever given at the College has been prepared for the coming season. The series consists of five entertainments and have been scheduled through the winter at dates when there is little other diversion on the Hill.

The following entertainments will be given:

Oct. 26th—The Elite Quartet, of Boston, Symphony Orchestra (violin, cello, harp and flute).

Dec. 16th—Leland T. Powers, Director of the Powers School of Expression.

Jan. 13th—Professor Hiram Bingham, of Yale. Lecture on the Ancient Inca Civilization of Peru as discovered by the excavations of the Yale-Peruvian expedition.

Feb. 9th—The Apollo Quartet, of Boston (concert).

Mar. 17th—Mr. and Mrs. H. R. Pierce. An evening of short dramatic sketches and one-act plays.

Season tickets for students are sold at \$1.00, and to others than students \$1.50. Single admission is 35c for each entertainment. Reserved seats are 50c

Titan 10-20 \$900 Cash f. o. b. Chicago

THERE is hardly a farm with a hundred acres or more of tillable land but what has belt work enough to keep a 20-H. P. engine busy when not doing field work. This belt work alone will in most cases pay the entire yearly fuel bill of a Titan 10-20 tractor. Add to this the deep plowing, disking, harrowing, seeding, fallowing, harvesting and hauling the Titan will do during the year, at less than horse cost, and you see at once what a gilt edged investment this tractor is.

Power, strength and economy as combined in the Titan 10-20, mean everyday usefulness. It has power and strength to take care of the everyday work of the farm. It is small enough to run light machines with economy. It works successfully on kerosene. It reduces the number of work horses needed. It saves so much in so many different ways, and does so much that it cannot help but pay for itself long before it is worn out.

Write for full information about this Titan 10-20—the tractor that pays for itself, that furnishes power at kerosene cost (less than half the price of gasoline), and that is just the right size, weight, and style for farms of 100 acres or more.

and 10c to holders of season tickets for each entertainment.

The concert given on October 26th, by the Elite Quartet attracted a large crowd of lovers of music and others spent a most enjoyable evening, and the Boston entertainers responded to many encores.

Dec. 16—Leland Powers will entertain. He is a very impressive speaker and ranks as America's greatest reader. The topics on which he will speak have not yet been announced, but they are sure to be good ones with something to think about as well as to amuse.

Professor Bingham, of Yale, is an authority on the Ancient History of Peru. We all are interested to know the history of the past ages, and the excavations by the Yale-Peruvian expeditions have thrown much light on their history. The Inca people are a tribe of South American Indians who exerted a predominating influence over the neighboring tribes during the 11th century. At the time of the conquest of Peru by the Spaniards they exerted a great influence over the other more or less cultural tribes of South America.

The Apollo Quartet comes to us with the reputation of being the best male quartet in New England. They have taken to themselves the name of the Roman God of music and poetry. As Apollo was said to foster the herds and flocks so the Apollo Quartet is equally successful in fostering large crowds of people.

The last entertainment of the series is to be given by Mr. and Mrs. Pierce. They are both said to be exceptionally good impersonators. The dramatic sketches and one-act plays are teeming with life and the entertainment should prove to be full of mirth from start to finish.

Third Agricultural Exhibition Is Held

(Continued from page 1.)

was held at 7.30, and the silver cup offered by Prof. Slate to the student obtaining the highest score, was won by Tomlinson, 1917s.

Dancing started shortly after 8 o'clock and continued till 11 o'clock. During this time the dancers were frequently refreshed by visiting the ice-cream booth at one side of the armory. The judges of the show were: For field crops, Prof. F. W. Taylor, of New Hampshire State College; for apples, Mr. Hollister, of the Horticulture Department; for poultry, Prof. Eaton, formerly professor of stock judging at Cornell.

The committee in charge were: Chairman, Rollin H. Barrett, '18; F. M. Trinder, '17; A. C. Sheldon, '17; H. D. Munroe, '17; D. H. Horton, '18; C. B. Durham, '19; R. C. Lucas, '20;

W. C. Edwards, '17s; W. L. Marsh, '18s.

The results of the exhibition follow:

The Clubby Smoke—"Bull" Durham

You start something lively when you produce "Bull" Durham in a crowd of live-wires and start "rolling your own". That fresh, mellow-sweet fragrance of "Bull" Durham makes everyone reach for "the makings". A hand-rolled "Bull" Durham cigarette brims over with zest and snap and the sparkle of sprightly spirits.

GENUINE "BULL" DURHAM SMOKING TOBACCO

Made of rich, ripe Virginia-North Carolina leaf, "Bull" Durham is the mildest, most enjoyable tobacco in the world.

No other cigarette can be so full of life and youthful vigor as a fresh-rolled cigarette of "Bull" Durham.

"Roll your own" with "Bull" Durham and you'll discover a new joy in smoking.

FREE An Illustrated Booklet, showing correct way to "Roll Your Own" Cigarettes, and a package of cigarette papers, will both be mailed, free, to any address in U. S. on request. Address "Bull" Durham, Durham, N. C.

THE AMERICAN TOBACCO CO.

Ask for FREE package of "papers" with each 5c sack.

Wheat and Clover

Many farmers stick to wheat raising mainly because clover follows it in the rotation.

But why not get the best possible out of both crops?

No crop returns better profit for the right fertilizer than wheat.

What is the right fertilizer? That depends on the soil and on what fertilizer you have used on it. The longer you have used phosphate the sooner it will pay you to balance it with

POTASH

Insist on your wheat fertilizer containing 6 to 8 per cent of Potash. Potash Pays on both wheat and clover.

If your dealer does not carry Potash, write us for prices, naming quantity needed, and ask for our free book, "Fall Fertilizers." It will show you how to save money and increase profits.

College Notes from New York

The eleventh annual conference of the National Collegiate Athletic Association, of which Connecticut is a member, was held at the Hotel Astor, in New York City, on December 29th. Hamilton College and Ohio State University were admitted to membership, so that at present Cornell is the only big college that is not a member of the fold.

The chief consideration of this conference was the adoption of a new constitution. The principle change in this new one is the substitution of the clause vesting power in the body to regulate athletics, for a clause giving it power to merely formulate rules, and to leave their adoption to the colleges themselves.

Another matter which came up was the determination as to what constituted a professional, and just where the limits of amateurism were. The conference decided that, in as much as there was such a divergence of opinion among the various colleges on this subject, the time was not opportune for formulating any such rules.

The next conference will be held in Kansas City in 1917.

Another convention important in college circles was the one held in the Hotel Astor during Christmas week. It was the annual meeting of the Athletic Research Party.

One of the speakers of the convention was Major Dorey, U. S. A., who said that athletes trained conservatively in many branches of sport, rather than stars in a single sport or group of sports, make the best fighting men.

Major Dorey entered the discussion on military training, which was the chief topic at the afternoon session of the conference. He made a stirring appeal for the physical development of the boys in the schools and colleges. Good bodily health, the endurance which the average man gains by conservative but systematic training and a sound constitution, are the best attributes a soldier can have, and if the youth of the land are developed properly along such lines it will take the military authorities only a short time to make them fit for service.

Commons Club

On Friday and Saturday nights, November 24 and 25, the Connecticut Chapter of Commons Clubs held its initiation of new men into its membership. Leonard H. Healey, Jr. 1915, one of the graduate members, was visiting the College at the time of the

initiation. The new men taken in were:

Joseph E. Ayer, Gustave P. Bochman, William H. Brown, Jr., Robert L. Chamberlain, Jr., Ralph E. Fairchild, Clarence J. Grant, Joseph H. McAuliffe, Irving P. McLay, Horatio E. Maguire, Francis J. Mahoney, Sewart H. Manchester, Axel J. Marcus, Whitney L. Marsh, Leslie B. Moore, Minott L. Osborn, J. Francis Ryan, William J. Schimmel, James E. Stuart, Henry Tonry, Franz E. Ude, Sidney Wheaton, Edward Wilson, Herbert W. Wright.

Schedule for Short Courses Announced

The short courses given at the College this year will vary somewhat from those of former years. There are to be four courses each of ten days' duration. They are as follows:

Dairying—December 26 to January 6.

Fruit and Vegetables—January 23 to February 2.

Poultry—February 6 to 16.

Live Stock and Crops—January 9 to 19.

Each course will consist of ten days of practical concentrated work and is intended to meet the needs of the busy farmer who has not been able to take the time for the longer courses given heretofore.

The College will be glad to send a descriptive bulletin and any other information to any who are interested.

New Storrs Garage

The wooden barn where Mr. Ralph J. Walker has stored his automobiles has been torn down. Upon the same site he is erecting a two-story tile garage with a cement floor. The building which is finished with electricity, will be completed about January first. The lower floor is to be used for the storage of his automobiles, consisting of four Ford touring cars, two Studebaker busses, one seven-passenger Studebaker touring car and one-ton truck. The building has been planned so that cars may be driven into the repair shop which occupies the second floor.

SIXTEEN FOOTBALL CS AWARDED.

Fifteen players and Manager Shea were awarded Cs for their work upon the gridiron for the season of 1916. This is three less in number than received their letters last year, due to raising the requirements for the awarding of a letter.

The following men received their letter: DeWolfe, Newmarker, Strong, Gleason, Alberti, Dickenson, Ryan, E. C., Clark, Hopwood, McCarthy, Tonry, Shafer, Francis, Maguire, Smith, and Shea, Manager.

The College Book Store

Pays no rent.

Pays no light or power bills.

Pays no taxes.

Pays no dividends.

Pays no salary for management.

Consequently it is able to sell supplies for less than regular retail prices. You will save money by buying ALL your supplies from the Book Store.

The Connecticut Agricultural College

STORRS, CONN.

FOUR-YEAR COURSE in Agriculture designed to train young men as Scientific Farmers, Teachers, and Agricultural Experts. Entrance requirements four-year high school course. B. S. degree.
